A vibrant, colorful mural on the exterior wall of a white building, featuring abstract shapes, patterns, and figures. The mural is painted over a section of the building's facade, which includes several windows with white frames and bars. The mural itself is a dense, chaotic composition of various elements, including a clock face, a smiling face, a car, and various geometric shapes. The colors are bright and saturated, creating a striking contrast with the white building. The mural is located on the right side of the building, extending from the ground level up to the second floor. The building is situated in an urban environment, with a clear blue sky visible in the background.
